

Satellite Wall Mounts

Satellite Wall Mountings

- The standard satellite wall brackets are constructed from 40x40x3 mm rugged angle iron for additional strength. These are fitted with 2.5" U-bolts and mast support clamps to reduce mast rotation.
- The heavy duty K&K satellite wall brackets are constructed from heavy duty 40x40x4 mm rugged steel angle for additional strength. These are fitted with nylock bolts and 4" mast support clamps to reduce mast movement. Design allows flexible installation spacing.

- The heavy duty 4mm angle construction.

Product Code	Description	Length (Back)	Length (Arms)	Stand Off
SAT/4	9"x9" Welded Satellite Mount with 2.5" V-Bolts	305 mm	305 mm	165 mm
SAT/4A	12"x12" Welded Satellite Mount with 2.5" V-Bolts	305 mm	305 mm	240 mm
SAT/4B	12"x18" Welded Satellite Mount with 2.5" V-Bolts	305 mm	457 mm	390 mm
