Ⓐ Mounting the wall plate

NOTE: Use a level to ensure the wall plate is horizontal.

Ⓑ Fix the front plate on the display screen

NOTE: Make sure the installation in accordance with following pictures.

VESA: 100x100 / 200x200 / 100x200 / 75x75

© Put the front plate on the wall panel

- Hang the locked screen on the front plate, as right picture shown.
- Be careful when you operate this bracket, or you may damage your screen.

④ Fix the wall plate and front plate

- After the locked front plate hang on the wall plate, use a M4X12 cross pan head to fix these two parts.

⑤ Angle adjustment

inner hexagon spanner M5

- (1) Adjustable angle design can make you enjoy the best optical angle. Maximum angle is -5° -- $+15^{\circ}$
- (2) After adjusting the seeing angle, use M5 inner hexagon spanner to fix the inner hexagon screw just like above picture shown.
