

AC11 - 2" Mast Coupler

Features:

- A device which enables two 2" diameter masts to be 'joined' to achieve a greater height.
- Made from bright zinc plated (BZP) steel offering corrosion resistance preventing rusting and oxidization.
- Comes with 10 BZP screws and nuts to securely join the masts together.
- Use with our angled offset reversible 10-13mm ratchet spanner for ease of install ([PROSPAN10-13](#)).
- Strong and sturdy ensuring a safe installation.
- Easy to store and transport.
