Making light work of Fibre

1-Way Outlet Plate

**BFOUT-1**

2-Way Outlet Plate

**BFOUT-2**

These single-mode fibre optical outlet plate boxes are designed for cable management and termination in fibre optic installations. Our boxes provide a convenient and protected optical output port, **ensuring efficient and reliable fibre optic connectivity**. These plates are perfect for **CATV distribution** as well as **DOSIS data transmission** and are well suited for **SAT-IF and DTT distribution** and compatible with various other fibre optic communication systems.

## Features

- Requires the use of flanged adaptors or couplers for seamless connectivity.
- Durable construction ensures long-lasting performance in demanding environments.
- Includes fixings for easy installation and wall mounting.

## Specification

<b>Connector Type</b>	Optical Simplex SC or Duplex LC
<b>Dimensions</b>	3mm
<b>Operating Temperature</b>	-25°C to 70°C

2-Way Pattress Box

BFPAT-2

4-Way Pattress Box

BFPAT-4

4-Way Large Pattress Box

BFPAT-4L

These single-mode fibre optical pattress boxes are designed for optimal **fibre cable organisation and termination**. With 2 or 4 protected optical output ports and a flip splice tray, our pattress boxes enhance connectivity and organisation, ensuring reliable performance. These boxes are suitable for **CATV distribution, DOSIS data transmission**, and other fibre optic communication systems. These boxes are also ideal for **SAT-IF and DTT distribution**.

## Features

- Requires the use of flangeless adaptors or couplers for seamless and compact connectivity.
- Flip splice tray provides easy access and organisation of fibre splices.
- Long lasting performance and protection for connections.
- Includes fixings for convenient installation and secure mounting.
