

PRORJ45TOOL

RJ45 Cut, Strip, Crimp, Trim Tool

The RJ45 crimp tool is compatible with standard and push through connectors (see diagram 1*), trimming the cable as it crimps. In addition to this feature, it also strips and cuts cable giving you one tool with all the functions you would need to fit a CAT5/5e/6 connector plug (see diagram 2*).

PRORJ45-5 CAT5e Plugs

PRORJ45-6 CAT6 Plugs

PRORJ45-BOOT Weather Boot

Easy to verify the correct wiring order by pushing the wires out of the front of the plug. Weather boots are also available for the push through RJ45 plugs.
